

Greetings from the Awards, Scholarships and Grants Committee

We have had a wonderful year thus far and we are confident that the trend toward increased membership, certification and professional development will continue. We were very excited about the number of applications we received for assistance with professional development and we are happy to report that every applicant, who met the criteria for award, was given a grant. Unfortunately, the high demand for assistance has depleted our Awards, Scholarships and Grants budget for this year. The Committee regrets that we will not be able to make any additional grants for the remainder of this year.

Best Regards,

Awards, Scholarships and Grants Committee
