**The Reverse Trade Show is one of the great events you can attend at the EXPO.**

**What is a Reverse Trade Show?** This event is where the buyers share information, educate, and inform companies how business is conducted with your governmental agency.

**How does it work?** The exhibitor visits the agency's tables and receives invaluable information on how to do business.

**Why should you participate?** This is an opportunity to develop new vendor contacts without having to schedule appointments or handle phone calls.

**Please help us make this event a success for you and the companies attending**

***This event is free to all governmental agencies.***
